## ABOUT ME

I am currently pursuing B.Tech in Computer Science and Engineering with a specialization in Artificial Intelligence at Amrita School of Engineering, Chennai. I will be entering my second year soon. I have been learning programming through Java, Python, and C, and I have also started exploring the basics of data structures and algorithms. I usually code using VS Code and enjoy experimenting with small programs to understand how things work.

I am genuinely interested in Artificial Intelligence and often find myself thinking about how it could shape the future. I enjoy solving problems and thinking creatively, especially when it comes to finding different ways to approach a challenge. While I have not done any formal projects yet, I am looking forward to gaining hands-on experience and learning from real world exposure through this internship. I believe this opportunity will help me understand the practical side of AI and cloud technologies, and I am excited to be a part of it.

## EDUCATION

2022 - 2024

Intermediate Education (MPC Stream)

Sri Chaitanya Junior College, Andhra Pradesh  
Percentage: 88%

2021 - 2022

SSC (10th Grade)

Sri Chaitanya EM Schoo, Andhra Pradesh  
Percentage: 91%

## STRENGTHS

- Quick learner with curiosity for new technologies
- Thinks outside the box to solve real-world challenges
- Strong theoretical foundation and logical thinking
- Consistent and disciplined in academics and project timelines

## SKILLS

- |                             |                            |                                  |
|-----------------------------|----------------------------|----------------------------------|
| • Fundamental DSA Knowledge | • Creative Problem Solving | • Critical Thinking & Innovation |
| • Analytics                 | • Teamwork                 | • Problem Solving                |
